How to play it?

Gently move your Koshi by its cord, or hang it up, and it will play with the wind and carry you away in an unexpected melody. Either way, its astonishing, relaxing sound may leave you in quiet wonder. You can also use a chime stand.

Koshi Forest is part of the **Earth Symphony** collection, four chimes inspired by **Mountain**, **Forest**, **River** and **Ocean**.

Your Koshi Forest – Earth Symphony:

Forest has a deep and contemplative character. Its melody is inspired by the forest as a living space and may evoke mysterious voices as much as silence. Since ancient times, the forest has been a place of retreat and initiation, where the everyday world falls away and the inner world opens. Beneath the trees, roots reach out and connect in a silent network, a reminder that nothing living stands alone. In the half-light between the trunks, thoughts grow quieter and a deeper listening begins. Let this chime invite you to pause, to listen inward and to find your own stillness among the whispering of the leaves.

The wood: Oak

The resonance chamber of your Koshi Forest is made of oak, a dense and strong hardwood with a distinct grain and a warm golden-brown tone. Durable and richly structured, oak is prized for its stability and its clear, resonant character. Symbolically, the oak is the king of the forest: the Druids held it sacred, and it was dedicated to the thunder gods Zeus and Thor. It stands for strength, endurance, protection and wisdom, and was seen as a gateway between the worlds. A fitting wood for the forest: rooted, ancient and quietly powerful.

Enjoy your lovely new sound.
