Someone thoughtful has gifted you:

Koshi Mountain
Earth Symphony

Notes: E E G# G# A A B B E G# A B

Tuned to 440 Hz, in E major

The original Koshi chime is an authentic musical instrument, a beautiful wind chime and so much more. Koshi chimes are used for sound healing, meditation, yoga, smudging rituals or simply for relaxation.

Fill your life with the sounds of bliss and abundance. Indulge yourself with the Koshi sound. Each Koshi is an original creation of high quality, handmade in a renowned workshop at the foot of the Pyrenees in France, and the result of meticulous craftsmanship.

How to play it?

Gently move your Koshi by its cord, or hang it up, and it will play with the wind and carry you away in an unexpected melody. Either way, its astonishing, relaxing sound may leave you in quiet wonder. You can also use a chime stand.

Koshi Mountain is the first chime of the **Earth Symphony** collection, four chimes inspired by **Mountain**, **Forest**, **River** and **Ocean**.

Your Koshi Mountain – Earth Symphony:

Mountain stands for majesty and the sacred. Its sound is broad, grounded and contemplative, and its melody may evoke height, silence, stability and presence. The notes appear, answer one another, then slowly fade. Four of the twelve rods repeat the same pitch and resonate in sympathy, adding depth. An axis between earth and sky, a place of stillness and inner uprightness: stability, presence, the feeling of being carried.

The wood: Walnut

The resonance chamber of your Koshi Mountain is made of walnut, a fine hardwood. Dense yet easy to work, with a rich brown tone and a fine grain, walnut has long been prized in instrument making for its warm, balanced tone. Symbolically, the walnut tree stands for wisdom, protection and inner strength: in Greek tradition it was sacred to Athena, and its hard shell around a tender core was seen as an image of the human being. A fitting wood for the mountain: grounded, enduring and calm.

Enjoy your lovely new sound.
