Koshi River is part of the **Earth Symphony** collection, four chimes inspired by **Mountain**, **Forest**, **River** and **Ocean**.

Your Koshi River – Earth Symphony:

River has a fluid, flowing and positive character. Its melody may evoke movement, change and the current of a river that is never the same twice. Since ancient times, rivers have been seen as paths between worlds: they carry the water of the mountains to the sea, and with it everything that is ready to be released. In many traditions the river is a symbol of the flow of life, of purification and of letting go of what no longer serves you. It teaches trust: you do not push a river, you move with it. Let this chime invite you to soften, to let your thoughts drift downstream and to meet what comes next with hope.

The wood: Cherry

The resonance chamber of your Koshi River is made of cherry, a fine hardwood with a warm reddish-brown tone and a smooth, fine grain. Stable and pleasant to work, cherry has long been appreciated in instrument making for its warm, balanced tone, which deepens in color with age. Symbolically, the cherry tree stands for renewal, hope and new beginnings: its blossom returns every spring, and in many traditions it is also a symbol of love and of the fleeting beauty of life. A fitting wood for the river: ever-changing, flowing and full of hope.

Enjoy your lovely new sound.
